I-LIDS Summary Data

Date Installed	6/26/22
Date De-installed	10/11/22
Videos Captured	2089
Videos Reviewed by ESP	2059
Total Videos Reviewed	2059
Launches counted	324
% of boat launch videos ¹	16%
Suspect AIS Violations	1 reported
Hours of operation	5am - 9pm
Total hours of inspection time	2240

Observations: People are curious about and aware of the camera, with many stopping to look, listen, and read the accompanying sign. Boaters are seen checking and cleaning before launches and after retrieval (weeds are spotted on boats exiting the water). An inspector is occasionally visible by the camera, picking up trash, clipping branches/weeds, and talking to boat owners. Very few boats from out-of-state are noted.

Recommendations:

¹ The number of videos is always greater than the number of launches. If there is a magnetic sensor, it will trigger the camera to look for motion for 120 seconds. During this time, any activity (inspection, tie-downs, people moving, cloud movement, etc.) in front of the camera will trigger another video. Infrequently, the magnetic sensor may trigger randomly, or vehicle movement behind the sensor may set up the camera for additional video capture. If there's no magnetic sensor, the camera simply looks for sufficient motion and will capture a video.
